Metal treatment
and Drop Forging (Established 1935)

Index to volume 28

January to December 1961

ARTICLES

A

Ageing of iron and low-carbon steel, low-temperature 175, 233
Aluminium lighting columns 297
Annealing, brass strip 288
Applications of electron bombardment heating in metallurgy 327
Austenitic grain size in hardenable steels, method to reveal 495
Automatic solvent degreasing plant 200
Avoidance of distortion in heat treatment 317

B

Bellows production at Edinburgh 20
Beryllium bronze, use in electron microscope grids 241
Britain's biggest die-forged aluminium propeller blade 506
BWRA, new engineering laboratory at 331

C

Carbide stringers, effect of, on the distortion of die steels during heat treatment .. 31, 59, 115, 157
Close-to-form and close-tolerance forgings 53
Cold deforming 14
Cold extrusion of steel, metallurgical aspects of the 309
Cold extrusion of steel, the 393, 451, 487
Cold forging, preparation of steel blanks for .. 168
Computer control of steel billet cutting, on-line .. 295
Costing heat-treatment operations 403
Creep of metals, the 459

D

Degreasing plant, automatic solvent 200
Diffraction patterns, technique for determination of 13
Distortion in heat treatment, avoidance of 317
Distortion of die steels during heat treatment, effect of carbide stringers 31, 59, 115, 157
Drop Forging Research Association .. 88, 199

E

Effect of carbide stringers on the distortion of die steels during heat treatment .. 31, 59, 115, 157
Effect of structural changes on the mechanical properties of hardenable, creep-resistant 35Ni-15Cr-3W-Ti, Al steel 433
Electron bombardment heating in metallurgy, applications of 327
Electron microfractography 274
Electron microscope investigation of S.A.P. structures 99
Electron microscopes, Russian 306
Electron microscope studies at the N.P.L. .. 279
Electron probe X-ray microanalysis 388
Elevated belt-type furnaces for cable works .. 381
Erbium and its alloys 271
Estimating critical ranges in heat treatment of steels 231
Evaluating high-strength materials 447
Explosive forming 401

F

Fatigue-crack propagation in metals 507

Ferrite grain boundaries in iron and low-carbon steels 133
Fluid-bed furnace, heat treating in the 289
Forging, gear and pinion 201
Forging of titanium, the 45
Forging presses, performance of 145, 193
Forging research in Sweden 89
Forgings, close-to-form and close-tolerance .. 53
Fuel efficiency in steel heat-treatment practice .. 357

G

Gauge blocks, investigation into the stability and accuracy of 407
Gear and pinion forging 201

H

Heat processing stainless steels 105
Heat treating in the fluid-bed furnace 289
Heat treating springs by shaker hearth 182
Heat treatment, avoidance of distortion in .. 317
Heat treatment, effect of carbide stringers on the distortion of die steels during .. 31, 59, 115, 157
Heat treatment, isothermal 225
Heat treatment of steels, estimating critical ranges in 231
Heat treatment of steels, some structural and physical aspects of the 183
Heat-treatment operations, costing 403
Heat-treatment practice, fuel efficiency 357
Heat-treatment, protective coatings for 354
Heat-treatment research at A.E.I.-Birlec 336
High-production electric furnace for continuous bright annealing 423
High-temperature alloy, a new 123

I

Induction heating of forging billets 467
Intergranular corrosion of austenitic steels containing 24% Cr and 19% Ni 5
Investigation into the stability and accuracy of gauge blocks 407
Isothermal heat treatment 225

L

Laves phases in modified 12% Cr steels, precipitation of 302
Letters—metallurgical qualifications 181
Low-temperature ageing of iron and low-carbon steel 175, 233

M

Machine-tool industry, research in the 291
Marworking high-speed steel 421
Materials for atomic energy 499
Mechanical working by the vibration method .. 349
Metallurgical aspects of the cold extrusion of steel 309
Metallurgy in nuclear power technology 204
Method to reveal austenitic grain size in hardenable steels 495
Microplasticity in metals and alloys at low temperatures 221

N

Non-destructive testing of welded tubing 249
Nuclear power technology, metallurgy in 21, 77, 153, 204

O

Observations concerning the structure of scale, and the mechanism of formation during the heating of steel 261
Oxford—department of metallurgy, University of.. 217

P

Performance of forging presses 145, 193
Precipitation hardening of low-carbon steel .. 63
Precipitation in low-carbon steel under cyclic loading 367
Precipitation of Laves phases in modified 12% Cr steels 302
Precision forging of steel shafts 95, 132
Production of mechanically-worked components from special alloys of limited forgeability .. 475
Productivity, the need for greater 2
Protective coatings for heat treatment 354

R

Radiographic examination of reactor pressure vessels 220
Research for the spring industry 419
Research in the machine-tool industry 291
Russian electron microscopes 306
Russian forging journal 19, 44, 114, 132, 174, 216, 260, 324, 443, 474

S

Samuel Fox, new alloy steel 308
S.A.P. structures, electron microscope investigation of 99
Scale adherence on steels 346
Scale and the mechanism of formation during the heating of steel, observations concerning the structure of 261
Solar furnace for high-temperature research .. 450
Some structural and physical aspects of the heat treatment of steels 183
Spark erosion, toolmaking by 483
Spark machining equipment.. 120
Spring industry, research for the 419
Steel blanks for cold forging, preparation of .. 168
Stress-relieving at Hunterston 377
Sweden, forging research in 89

T

Technique for determination of diffraction patterns 13
Titanium components, press-forged 48
Titanium compressor-blade forgings 50
Titanium, the forging of 45
Toolmaking by spark erosion 483

U

Ultra-high-vacuum techniques 335

V

Vacuum casting installations at River Don Works, Sheffield .. 326
Vacuum casting of steel at Steel, Peech & Tozer .. 296
Vacuum furnaces are versatile .. 107
Vibration method, mechanical working by the .. 349

W

Walter Somers, 3,000-ton forging press at .. 510
Work study—use of method study in the drop-forging industry .. 411

BOOKS

Cemented carbides .. 382
Foundry moulding sands of India .. 468
Industrial electric furnaces and appliances .. 37
Lead and lead alloys for cable sheathing .. 410
Metalsmithing for the artist-craftsman .. 410
Overseas newspapers and periodicals guide book .. 37
Physical metallurgy .. 468
Research on the rolling of strip .. 144
Surface microtopography .. 144
Symposium on aluminium in building, a .. 37
Vacuum processing in metallurgy .. 37
X-ray metallography .. 382

EXHIBITIONS

British Trade Fair in Moscow .. 165
Engineering, Marine, Welding and Nuclear Energy Exhibition .. 243
Engineering, Materials and Design Exhibition and Conference .. 499
Laboratory Apparatus and Materials Exhibition .. 166
Modern industrial metals .. 126
Russian electron microscopes .. 306
Soviet Exhibition in London .. 298
Stainless steel for London .. 165

FILMS

Carborundum films .. 482
Industrial notebook on iron and steel, an .. 122
Physical Society .. 74
Precision for the mighty .. 482
Tool and die steels .. 482

LEADERS

Apprentice training .. 257
A science degree .. 431
Britain's exports .. 301
Chemists and alchemists .. 215
Engineering design .. 89
Ergonomics .. 43
Metallurgical qualifications .. 173
Research in the steel industry .. 345
Sheltered industry, a .. 131
Steel and Europe .. 473
Steelmaking 1961 .. 1
Training centres .. 387

LETTERS

Metallurgical education .. 400
Metallurgical qualifications .. 181
Scaling of steel .. 444

NADFS

Annual banquet, 1961 ..
Annual convention, 1961 .. 258

NEW PLANT

Alcan furniture alloy .. 86
Automatic crack detection .. 38
Basin tilter furnace .. 86
Betatron for hot state radiography .. 38
Ceramic insulating brick at temperatures up to 2,320 C. .. 130
Coatings for shot-blasted steel .. 344
Controlled atmosphere box furnaces .. 344
Diamonds, large man-made .. 82
Dunking machine .. 84
Edwards induction furnace .. 172
Electrically-heated salt bath furnaces .. 130
Electronic grinding indicator .. 38
Firth Cleveland tangential fan .. 172
High-precision laboratory furnaces .. 344
Hydrogen, pure dry .. 38
Induction gear hardening .. 84
Instrumentation for carbide sintering .. 84
New electric measuring and control system .. 386
Non-contact gauges .. 430
Portable oxygen analyser .. 386
Pulsimitor senses random objects .. 386
Rapid-heating furnace for light-alloy billets .. 172
Rectangular aluminium ingot, largest .. 39
6½-ton spun pressure vessel head at Leipzig Fair .. 125
Spark machining .. 130
Versatile oscilloscope cameras .. 386

OBITUARY

Archer, George .. 38
Gregory, Edwin .. 514
MacMillan, R. D. .. 514
Sandland, George .. 384
